

Customized **EMPLOYEE BENEFIT GUIDES**

BRAND your Employee Benefits. *Image is Everything!*

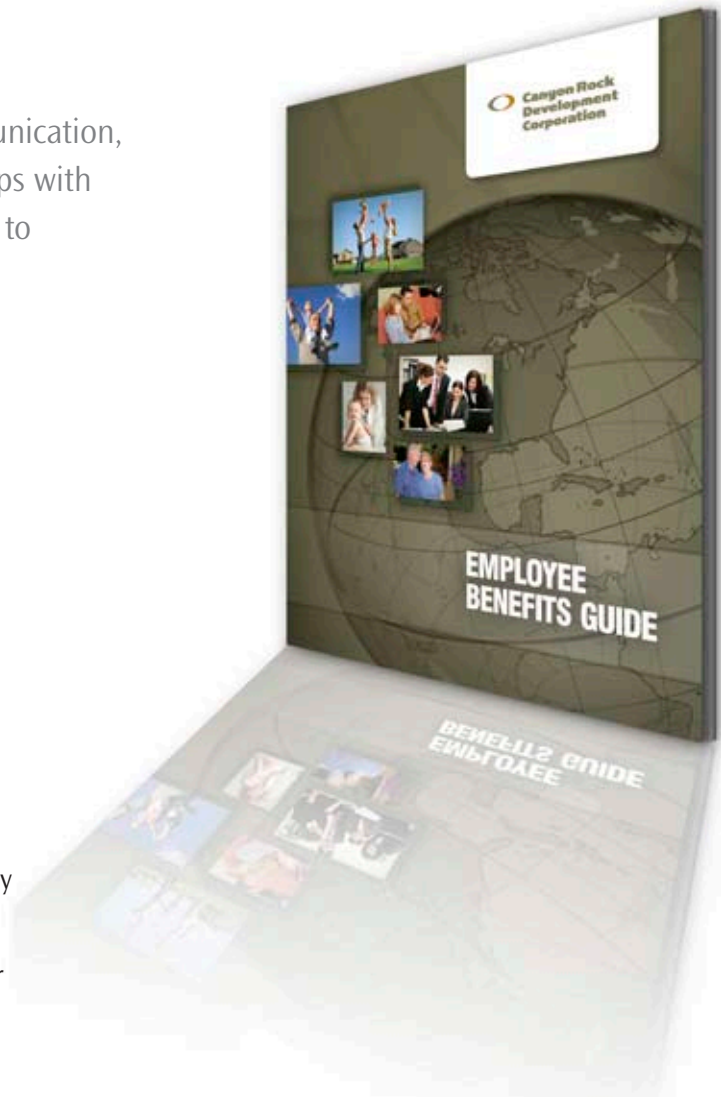

In order to help boost your benefits communication, Web Benefits Design can provide your groups with comprehensive benefit reference brochures to compliment their benefits website.

Companies spend exorbitant amounts annually to provide employees with a robust benefits package. More often than not, these plans are poorly communicated, resulting in out of pocket expenses for employees. Your all-inclusive benefits guide will help to further reinforce and communicate the benefits package offered.

Combined with the website, the development and distribution of your Employee Benefits Guide will help “brand” your benefits package and help give employees a greater sense of familiarity, understanding and appreciation of their overall benefits.

Our custom Employee Benefits Guides are an excellent way to showcase benefit plans in hardcopy format. Our standard guide is 16 pages, full color, professionally printed and bound on the highest quality, high gloss, thick paper stock. As part of our continued service, we do the work for you from design and layout to printing and shipping. Give us a call today at (800) 779-8952 to get started.

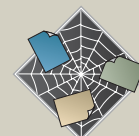

- ✓ Price includes an initial one-time setup fee for (content, graphics, page layout, artwork) of \$450.
- ✓ A draft will be developed within one week and revisions can be made as necessary.
- ✓ Please allow 2 – 3 weeks for printing.
- ✓ Quantities of 450 or less will have spiral binding, quantities above 450 will be saddle stitched. Ask your sales representative for samples today.
